United Verde sold for 50c. a share, today stock not in the market and pays 8,666 per cent, on investment

Culumet and Hecla sold for \$1 a share, foday worth \$800, and pays on investment 10,000 per cent. 000 per cent.
Entire capital stock of United Verde was offered for \$150,000 and refused. Senator Clark, later, paid \$260,000, and to-day he has an annual neome from this property of over \$13,000,000.

an annual neome from this property of over \$13,000,000.

If this is possible here with labor six times higher than in Mexico, with ore five times less valuable, with fuel five times dearer, and everything else in proportion, do you doubt that El Progreso will return 173 per cent, and more annually to original investors, to first stock-holders who contribute the mouvey to start "ball radling," who are on the "ground stoor."

All of these instruments are first-class, sold on five years guarantee and at prices never so low before; we also have the sagency for two fine grade to be sold when the sagency for two fine grade to extra t the gold, silver or quicksilver.

A modern 40-ton concentrating and smolting plant-smelting only the \$43 ore - will return \$400,000 per aunum: thus \$43, \$10 for treatment, equals \$233240 tone equals \$1,320 a day for 300 days equals \$338,000. This will pay 25 p.c. on \$1,500,000 total capitalization. Par value of shares \$100, \$50,000 shares are treasury stock, and \$400,000 of this to be sold very low to raise money to start things when price will be greatly advanced—100,000 at 12c tail sold), 100,000 at 15c, 100,000 at 20c, 100,000 at 25c.
